SUMMARY

Product/UX Designer with 3+ years designing SaaS and case-management products, backed by 10+ years of digital strategy and communications leadership. Led research, product strategy, and end-to-end UX for Project90, translating complex nonprofit workflows into scalable web and mobile experiences for executives, supervisors, and field teams. Strong in user research, information architecture, interaction design, prototyping, usability testing, Figma, and cross-functional stakeholder collaboration.

EDUCATION & CERTIFICATIONS

UI/UX Certification — George Washington University, Washington, DC

B.F.A., Advertising — William Carey University, Hattiesburg, MS

Certified ScrumMaster (CSM) • Google Project Management Certificate • HubSpot Inbound Sales Certification

EXPERIENCE

UX/UI Lead Designer

March 2021 – Present

PROJECT90 — Remote (Pensacola, FL)

- Led end-to-end UX strategy and product design for a SaaS case-management platform serving executives, supervisors, and field staff; translated complex workflows into product requirements through interviews, surveys, focus groups, and usability testing.
- Designed responsive web and mobile workflows for case notes, service plans, goals, referrals, performance reporting, funding, and staff activity; partnered with developers through implementation and iteration.
- Introduced speech-to-text case notes, reducing manual data-entry time by 40%, and API-enabled integrations that reduced duplicate entry and increased user satisfaction by 25%.
- Designed analytics and reporting experiences that helped nonprofit managers act on operational data up to 50% faster, partnering cross-functionally with engineering and program leadership.
- Designed for national scale across executive, supervisor, and field-user workflows, balancing usability, permissions, reporting needs, and operational complexity.

Communications Director

December 2020 – October 2024

90Works — Remote (Pensacola, FL)

- Led digital communications and growth strategy for a national nonprofit, using website strategy, SEO, analytics, content, and campaign optimization to increase web traffic and engagement by 50%+.
- Directed multichannel campaigns and stakeholder communications that increased organizational awareness by 40% and donor contributions by 30%.
- Used A/B testing and analytics to improve campaign response rates by 35%; collaborated across executive, program, development, and technical teams.

Earlier Marketing & Communications Roles

January 2013 – November 2020

90Works — Pensacola, FL / Remote

- Progressed through Digital Communications Strategist and Marketing Specialist/Contractor roles, leading content, social, email, paid media, and audience strategy; grew the organization's online community 70%, doubled audience reach, and increased engagement across channels.
